AMLT - THE TOKEN OF COMPLIANCE

AMLT is the token for the AMLT Network
and the industry leading Coinfirm AML Platform
used by countless crypto and traditional companies

creating a safer
crypto economy

What is the AMLT Network?

- ◆ The AMLT Network and Coinfirm AML Platform is the first of its kind system where users can report nefarious cryptocurrency addresses related to ransomware, hacks, scams, and other fraud, plus also receive protection from further actions by bad actors
- ◆ Once data provided is verified by Coinfirm and implemented into the AML Platform, the ecosystem can block suspicious users and funds
- ◆ Network Members are rewarded in AMLT for supplying legitimate data on nefarious actors, or data on themselves and other parties they trust
- ◆ Use your AMLT to buy AML/KYC Risk Reports and other services you need + other benefits

Who is it for?

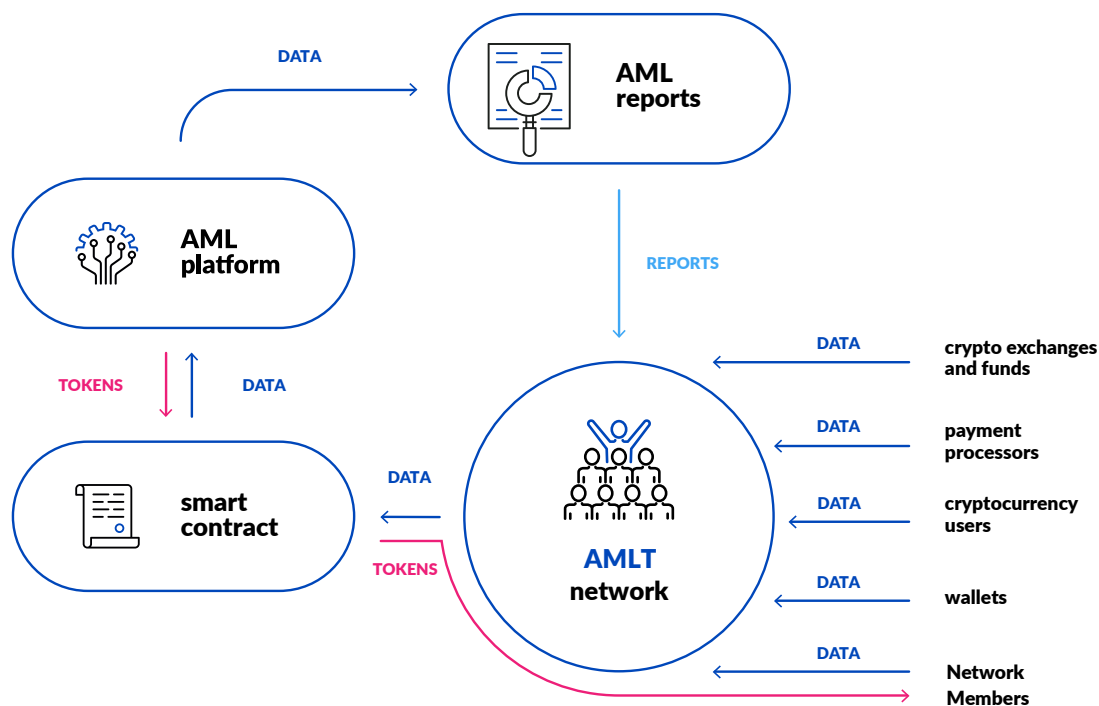

... and more!

Why become a member?

- ⇒ **Protect Your Business and Clients**
Benefit from the AMLT Network and Coinfirm AML/KYC platform and tools to prevent exposure to bad actors and fraud
- ⇒ **Lower Risk and Increase Efficiency**
